INVIERNO
DE 10.00 H. A 22.00 H.

THE STORY

This is the same tree but 40 years ago.

It's one of the oldest trees in Úbeda. It's in "Vandelvira's park" and it was the first park to be built in this city.

This tree is really important for us because it is always with the childrens who play there or with youngs or adults who hang out there.
