

Sports objects in Tychy

There are lots of sports objects in Tychy—fields, sports halls but the most interesting are Town Football Stadium, Winter Stadium and Water Park (under construction).

There are also many outdoor gyms, a skate-park and a pump track.

But most of all, Tychy is green - parks, squares and historical Pszczyna Princes' forests, famous for their extraordinary diversity of flora and fauna, constitute more than half of the surface of the city.

In the city there are 172 m² of green areas and 7.2 m² of greenery per each resident.

There is also a small but beautiful lake called Paprocany. There is a nice beach, some sports fields, a playground, an outdoor gym, a bike route, a water park for kids and a nice promenade.

TYCHY—A GOOD PLACE TO VISIT :)

Tychy- a good place!

A short history

Tychy originated as a small agricultural settlement. Tychy was one of the richest villages of the Pszczyna district. In 1629 the Princes' Brewery was opened. Hops and barley were grown and fish were bred, craft and industry were developing. Tychy were owned by the successive feudal lords, standing at the helm of the so called Pszczyna State Country.

The beginning of the post-war history of the city began on the 4th October 1950, when the Presidium of the Government decided to build the New Tychy. A year later, the town received a city charter. The expansion of Tychy was the effect of the plans to create housing facilities for the Upper Silesian Industrial Region. The city was developing very dynamically, becoming the location of a number of important investments, thanks to which it became more than just a housing facility-it gained the status of an independent city.

Tychy, one of the largest cities of the Silesian province, is located in its very centre. There are some exceptional modern and historical places to see.

Town Hall

Monument „Walki i pracy” (of Fight and Work) - citizens call it a Giraffe

Town Museum

It's a newly opened Museum. It has a nice collection of traditional silesian clothes and many historical objects and photographs donated by citizens.

Duke's Brewery

Tyskie Browary Książęce (Duke's Brewery) is a special place, with a history of brewing dating back almost four hundred years. Beer has been brewed here without a break since 1629, which makes it one of the oldest breweries in Poland. Tyskie Browarium - a brewing museum - was established in 2004.

Main Square and St. Mary Magdalene Church

St. Mary Magalene's church and a town market square are two beautiful places in Tychy. The church was built in 1782. Until 1967 it was the only church in Tychy. The best attraction of the market square is "Otter fountain".

Piramida Hotel

It's one of the most exceptional hotels in Poland. It is built in the shape of a pyramid and it is located on the energy emitting chakra (a place of strong and positive Earth influence).

Promnice Hunters Lodge

The historic Promnice Hunting Lodge is currently a cosy and compact hotel and restaurant, picturesquely situated by the Paprocany Lake. The Lodge came into being in 1861, built to a design by Olivier Pavelt in the English neo-Gothic style for Duke of Pszczyna Jan Henryk XI Hochberg. It has stood in its unaltered form, harmoniously integrated into the forest landscape, up until today.
