

In 15th century Trenčín castle was ruled by king Steven Zapolský. The Trenčín castle was built on the top of the hill.

There was a big problem with water. The guests who came to the Trenčín castle brought news that castle will be attacked by the Turks. Rich people weren't in such a great danger as poor people but no one could be sure of their safety. The soldiers of king Zapolsky won the battle.

They were very surprised to find that the commander of the Turkish army was a woman. They showed her to Zapolsky but his wife asked her husband to have mercy on her. The commander of the Turkish army was Fatima who got into the captivity.

She had a boyfriend who was called Omar. He got into captivity, too. He wanted to redeem Fatima from captivity. Zapolsky promised to Omar he will give him Fatima under one condition.

He has to find water by digging well in the ground near the castle. Omar was digging for a long time but the ground was dry and rocky and there was no water.

Omar's desire to free Fatima and his love to her was very strong. Finally after three years of digging water appeared. Everyone was happy.

Now Omar could go to Zapolsky and ask him to fulfill his promise. Unfortunately it was not possible.

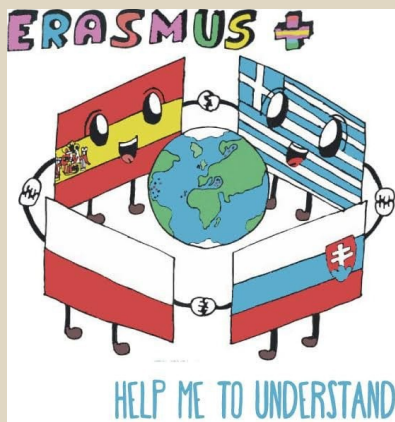

For a long time Zapolsky did not tell Omar that Fatima was ill. When Omar came for Fatima she had been already dead. Omar just cried.
